

UNITING COLORADO'S TECHNOLOGY COMMUNITY

Join the Colorado Chamber of Commerce Technology Alliance

Technology Alliance Chair: Nico
Probst with Amazon

Unite the business community to keep Colorado competitive...

While Colorado's overall
national business
competitiveness is declining,
the tech industry is a strong
economic driver for the state.

However, new legislation and
regulations continue to chip
away at the operations of this
industry and now is not the time
to be complacent.

Colorado has the opportunity to
be a leading state for
technology companies and
technology job growth.

HOW WE GET THERE

The Colorado Chamber of Commerce is uniting Colorado's
technology community behind a statewide, solutions driven
effort to support policies that maximize our position as a top
state for technology growth.

PRIORITIES

- Educate state leaders and the public on the benefits of this
industry that attracts and retains skilled workers,
- Stop the advancement of technology legislation that
reduces Colorado's competitiveness with other states.
- Educate legislators on the impact of their proposals that
impact this industry.
- Unite a strong statewide voice to bring awareness of the
industry through research and advocacy.

ROLE OF ALLIANCE MEMBERS

Join a group of your peer leaders in reviewing legislation and
regulations that could affect the tech industry and hear from
experts in this field on emerging technologies. Areas of focus
include but are not limited to:

Artificial Intelligence	Data Privacy
Childrens' Privacy	Gig Workers
Facial Recognition	Independent Contractors
Biometrics	Cryptocurrency
Digital Inclusion	Right of Way Fees & Permitting
Security Clearance	

Join us to improve Colorado's technology community!
